

CGI Brown Bag Session

Guest Speaker Rikki Magnussen

Join us for the first CGI Brown Bag Speaker of 2015!

Professor Magnussen, from Aalborg University of Denmark, will talk about community driven science learning games, and scientific discovery games for science education. Magnussen will share insights from four years of research into these types of games related to: 1) students reflective embodied learning of highly theoretical quantum physics concepts, and 2) authentic player identity in the game-research collaboration context.

Join us for the January Brown Bag
January 22, 2015
Payne Hall Room 129
12:00-1:00 pm
